

5 Ways To Create a Safety Culture

1

Talk about safety

Conduct Regular Toolbox Talks & Supervisor Training Sessions

2

Review & Analyse

Conduct Task Analysis & Risk Assessments, Document the Inherent Requirements of High Risk Tasks

3

Train & Educate

Develop Task Specific Training, Pre-Employment Screening Process & Induction Programs

4

Consult & Improve

Specialist onsite providers can offer advice on best practice injury prevention & risk management

5

Revise & Update

Regularly Review High Risk Tasks, Update Task Analysis & Training Modules
